

December 1978

Bonjour - Chimo - Greetings - Shalom -

A number of staff have enquired about K.K. '79. Already, I've met with a number of people. If you think that you might like to join the staff for another Kanawana summer, just give Olga or I a call at the office. We will begin sending applications out on the 3rd of January.

A couple of changes for next summer should be mentioned.

1. Counsellor salary range has been increased by 25% - other salaries are essentially the same.
2. Those wishing to work as a tripper or tripper-counsellor must have their St. John's Ambulance First Aid Certificate and a minimum of a Bronze Medallion Life Saving Award.
3. The positions of Arts & Crafts assistant and waterfront auxiliary no longer exist.
4. Kamp will be operated a little differently next year. A number of things that were tolerated in the past will not be in '79. Details will be discussed when you have your interview. Senior positions will in most cases require two or more interviews.
